The options for wholesome muffins are endless, as you'll see in this collection of 20 recipes. Here you'll find recipes for classic bran muffins, banana muffins, four different kinds of blueberry muffins and more. A bit of the nutritious with the delicious.

Fancy Molasses

Fancy Molasses is the highest grade of molasses. It's made from pure sugarcane juice that has been inverted into a syrup (not unlike the maple syrup-making process). Fancy molasses is tangy sweet in flavor. It contains no additives, is unsulfured, gluten-free and non-GMO. Our fancy molasses is considered a source of iron and a good source of riboflavin.

MOLASSES 100% NATURAL

- Tasty & nutritious
- Made from pure sugarcane
- A source of iron, riboflavin and potassium
- No preservatives
- Gluten free
- Non-GMO

MORE ABOUT OUR MOLASSES

Cooking Molasses

Cooking molasses is a blend of blackstrap and fancy molasses. It is thicker and darker than fancy molasses – less sweet, with a more “full-flavoured” taste. Any product made with cooking molasses will have a much more robust “molasses” flavour than if fancy molasses is used.

Blackstrap Molasses

Blackstrap molasses is a nutrient-rich product with a robust, bitter-tart flavor. Crosby's blackstrap is a byproduct of the raw sugar manufacturing process. It is nutrient dense and is considered a good source of iron and magnesium and an excellent source of riboflavin and potassium. It is also considered a source of calcium, selenium, vitamin B6, manganese and copper.

We Don't Add Sulfur

Crosby's does not add sulphur to any of our products.
