

CROSBY FOODS

CO-MANUFACTURING

CANADA'S TRUSTED FOOD MANUFACTURER SINCE 1879

For five generations, our family-owned company has been supplying Canadians with quality foods. Since 1879, Crosby's molasses has been a staple in Canadian households, while brand owners and retailers nationwide have entrusted Crosby's with **product development, contract and private label manufacturing of dry powder blends, dry sugar blends and liquid blends.**

- Conventional or functional powdered beverages
- Hot Chocolate
- Gelatin & Jelly Mixes
- Creamers
- Sauces and syrups
- Nutritive sweeteners
- Advantage of #11 sugar vs US domestic #16
- Convenient formats
- Sustainable packaging

Our proven food manufacturing expertise ensures quality and safety and with **vertically integrated operations**, from food grade liquid bulk storage to break bulk and multi-accredited co-manufacturing capabilities, we offer a **turn-key solution** to optimize supply chain for customers looking to on-shore or re-shore production for the North American market.

CROSBY FOODS

- SQF certified facility, ensuring quality & food security
- Experts in dry powder and liquids blends
- Vertically integrated: brands, manufacturing, liquid bulk storage
- New product development & innovation
- Flexible and adaptable
- Ethical Sourcing
- Canada wide shipping & distribution
- Happy private label & Brand owners as customers
- Continuous improvement programs, lean operating principles

CERTIFICATIONS

- SQF certified – GFSI compliant
- Organic certified
- Non-GMO verified
- Kosher certified
- NHP in process
- Allergen Control
- Peanut Free facility
- Produced/Packed in Canada

LOCATION

- Ideally situated on Canada's east coast, in Saint John, New Brunswick.
- Proximity to major shipping lanes via road, rail, ocean.
- Shortened supply chain and timelines for Canadian & northeastern US customers.
- Reduced food miles for more sustainable manufacturing and transportation.
